## SUMMARY

I am a Computer Engineering student with a passion for web application development and AI/ML. I create intuitive, user-centered digital experiences and bring designs to life through coding. Eager to apply my skills and creativity to dynamic web development and AI-driven projects, and contribute to innovative solutions.

---

## EDUCATION

2023-2027

**Fr. Conceicao Rodrigues College of Engineering (Second Year)**

Bachelor in Computer Engineering CGPA: 9.61 (3 Semesters)

---

## INTERNSHIP EXPERIENCE

**Innovation Hub**

**Frontend Developer Intern**

Dec 2024 - Present

Developed responsive web applications using React and Next.js, focusing on user experience and performance optimization.

**Tech Stack:** React JS, Tailwind CSS, JavaScript, CSS

---

## HACKATHON EXPERIENCE

- **Runner up at Coherence - 25**

**Vidyavardhini College of Engineering and Technology**

**Project : ScreenSmart**

<https://devfolio.co/projects/screensmart-b0a3>

An AI-driven hiring assistant that automates resume screening, ranks candidates intelligently, and reduces recruitment bias using NLP, machine learning, and predictive analytics.

- **1st Place - Auraflix Hackathon**

**By Auraverse**

**Project : InfluenceIQ**

<https://devfolio.co/projects/influenceiq-b938>

InfluenceIQ is a data-driven influencer marketing platform that ensures authenticity and impact. It features LLM-powered influencer matching, a Credibility Score, and trend forecasting. To bypass Instagram scraping limits, we built a custom API using Kaggle datasets for real-time insights.

- **DotSlash 8.0**

**NIT Surat**

**Project : MediSense.ai**

An AI-driven healthcare solution integrating gesture control, real-time vitals tracking, and secure telemedicine to improve accessibility, diagnostics, and workflow efficiency.

---

## SKILLS

- **Web Development:** Proficient in MERN stack (MongoDB, Express, React, Node.js) and Django
- **AI/ML:** Experience with machine learning models, NLP, and AI-driven applications
- **Graphic Design:** Skilled in Adobe Creative Suite for creating digital designs and visual assets
